Weigh, Wrap and Label

Increased Flexibility
Enhanced Automatic Wrapping

Quality Wrapping
Improve the packaging quality of your meat trays with the 865's fully automatic wrapping capabilities. A single heat bar ensures the film is firmly sealed safely and with no loose ends. Clear arrows on the machine assist operators in centering the package. The 865 is programmable to the "package level" for optimal film usage and label design.

Flexibility
Right side, left side, top, bottom or underneath—operators have total flexibility with manual label placement. The 865's high-definition printer offers compliant labels with high-quality text and logos. Additionally, the 865's out-feed table can fold up for more space to weigh and print labels for items that are too large for automatic wrapping.

Speed
With automatic wrapping speeds of up to 25 packages per minute, the 865 Semi-Automatic Wrapper is the fastest wrapping machine in its class. Less time spent wrapping packages allows for more time spent assisting customers and fulfilling other store duties.

Space Saving Design
With a footprint of only 19 ft², the 865 Semi-Automatic Wrapper saves space in the backroom. Operators can load and empty trays, change label rolls and change the film all from the front of the machine. Users can perform the wrapping process from start to finish ergonomically in a limited space.

865 Semi-Automatic Wrapper
Automatic wrapping, manual labeling

The METTLER TOLEDO 865 Semi-Automatic Wrapper is the perfect choice for grocery retailers looking for the efficiency of automatic weighing and wrapping, and the flexibility of manual label placement. This robust semi-automatic system is intuitive and easy to use, even for first time operators. Step-by-step on-screen prompts guide users through simple tasks, such as changing the roll of film and daily cleaning routines. The 865 integrates seamlessly with all METTLER TOLEDO networked equipment, offering total visibility throughout your enterprise.

METTLER TOLEDO

- **Wrapping speed of 25 trays per minute**
- **High-speed label printing of 6 inches per second**
- **Intuitive user interface with touchscreen and tactile keyboard**
- **Easy to clean, hygienic design**
- **Quick and easy film and label changing**
- **Small footprint of 19 ft²**

The Ideal Choice for Semi-Automatic Solutions

The high-performance 865 Semi-Automatic Wrapper is perfect for retailers that demand excellent wrapping quality and the flexibility of manual label placement. Robust, intuitive and efficient, 800 Series wrapping machines support weighing, wrapping and labeling for optimized backroom processes.
