INTRODUCTION

Your new 8442 unit is among the finest precision digital computing scales available. It is simple to use and requires minimum maintenance. These scales come from proud tradition that has made METTLER TOLEDO the worldwide symbol of the highest quality in precision weighing equipment.

Please read these instructions carefully. You will find operating the unit is very simple. In the unlikely event you should experience difficulties, contact your authorized METTLER TOLEDO SERVICE OFFICE listed in the yellow pages of your telephone directory.

Properly used and maintained, your new scale will provide years of accurate weighing with will protect your profits and your customers. Please handle your scale as you would any fine electronic equipment. Information regarding METTLER TOLEDO Technical Training may be obtained by writing to:

FCC Notice

This device complies with Part 15 of the FCC Rules and the Radio Interference Requirements of the Canadian Department of Communications. Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

**METTLER TOLEDO RESERVES THE RIGHT TO MAKE REFINEMENTS OR
CHANGES WITHOUT NOTICE.**

PRECAUTIONS

READ this manual BEFORE operating or servicing this equipment.

FOLLOW these instructions carefully.

	 WARNING
	ONLY PERMIT QUALIFIED PERSONNEL TO SERVICE THIS EQUIPMENT. EXERCISE CARE WHEN MAKING CHECKS, TESTS AND ADJUSTMENTS THAT MUST BE MADE WITH POWER ON. FAILING TO OBSERVE THESE PRECAUTIONS CAN RESULT IN BODILY HARM.

SAVE this manual for future reference.

	 WARNING
	FOR CONTINUED PROTECTION AGAINST SHOCK HAZARD CONNECT TO PROPERLY GROUNDED OUTLET ONLY. DO NOT REMOVE THE GROUND PRONG.

DO NOT allow untrained personnel to operate, clean, inspect, maintain, service, or tamper with this equipment.

	 WARNING
	DISCONNECT ALL POWER TO THIS UNIT BEFORE INSTALLING, SERVICING, CLEANING, OR REMOVING THE FUSE. FAILURE TO DO SO COULD RESULT IN BODILY HARM AND/OR PROPERTY DAMAGE.

ALWAYS DISCONNECT this equipment from the power source before cleaning or performing maintenance.

 CAUTION
BEFORE CONNECTING/DISCONNECTING ANY INTERNAL ELECTRONIC COMPONENTS OR INTERCONNECTING WIRING BETWEEN ELECTRONIC EQUIPMENT ALWAYS REMOVE POWER AND WAIT AT LEAST THIRTY (30) SECONDS BEFORE ANY CONNECTIONS OR DISCONNECTIONS ARE MADE. FAILURE TO OBSERVE THESE PRECAUTIONS COULD RESULT IN DAMAGE TO OR DESTRUCTION OF THE EQUIPMENT OR BODILY HARM.

CALL METTLER TOLEDO for parts, information, and service.

 CAUTION
OBSERVE PRECAUTIONS FOR HANDLING ELECTROSTATIC SENSITIVE DEVICES.

1 Introduction

General Description

This manual covers the operating instructions for the model 8442-1611. The METTLER TOLEDO 8442 is a digital computing scale with an integrated thermal label printer. The 8442 is an Ethernet scale, which has a database containing PLU's, Extra Text and etc. A PC program (SPCT) is available to download or upload the database from the PC. The PLU memory can handle up to 5060 items.

Component and Control Locations

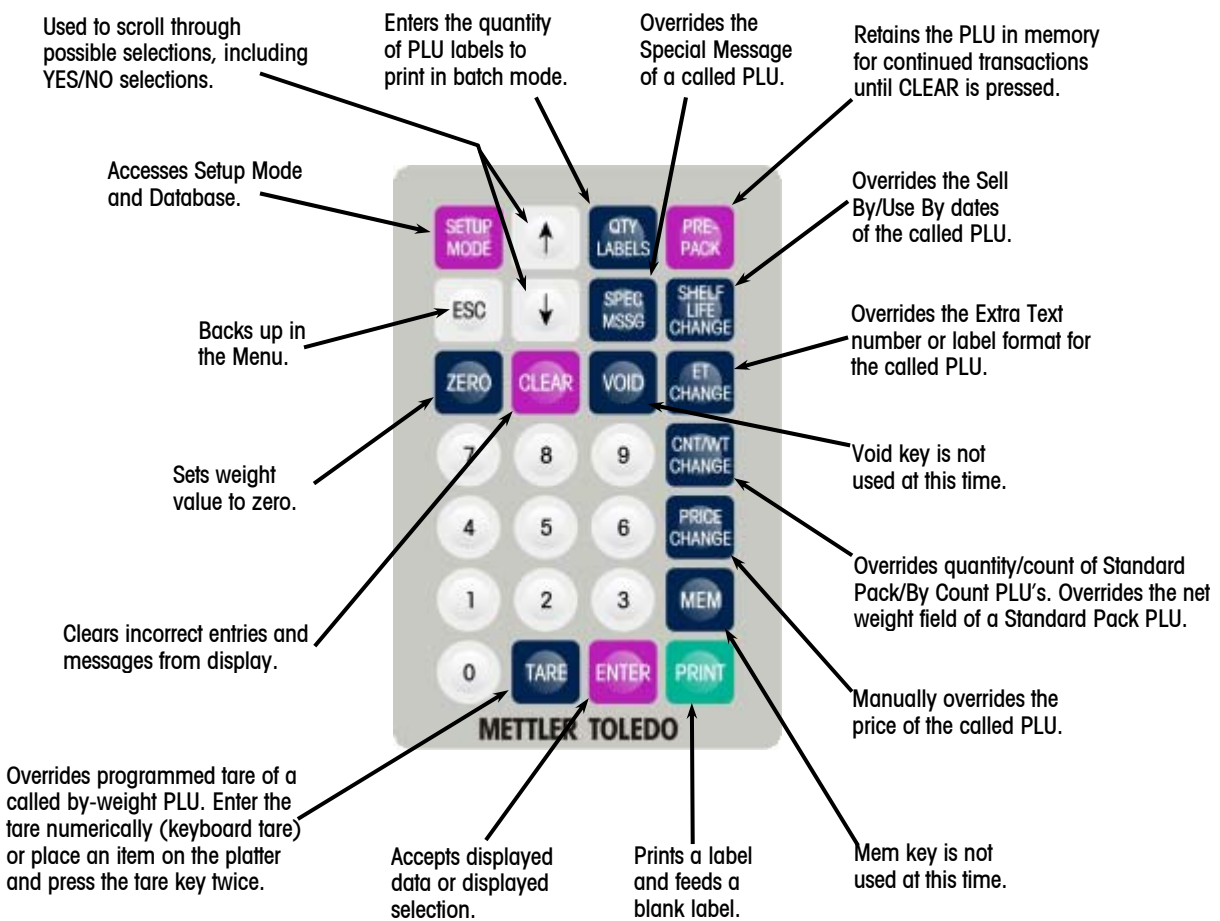

Display

Keyboard

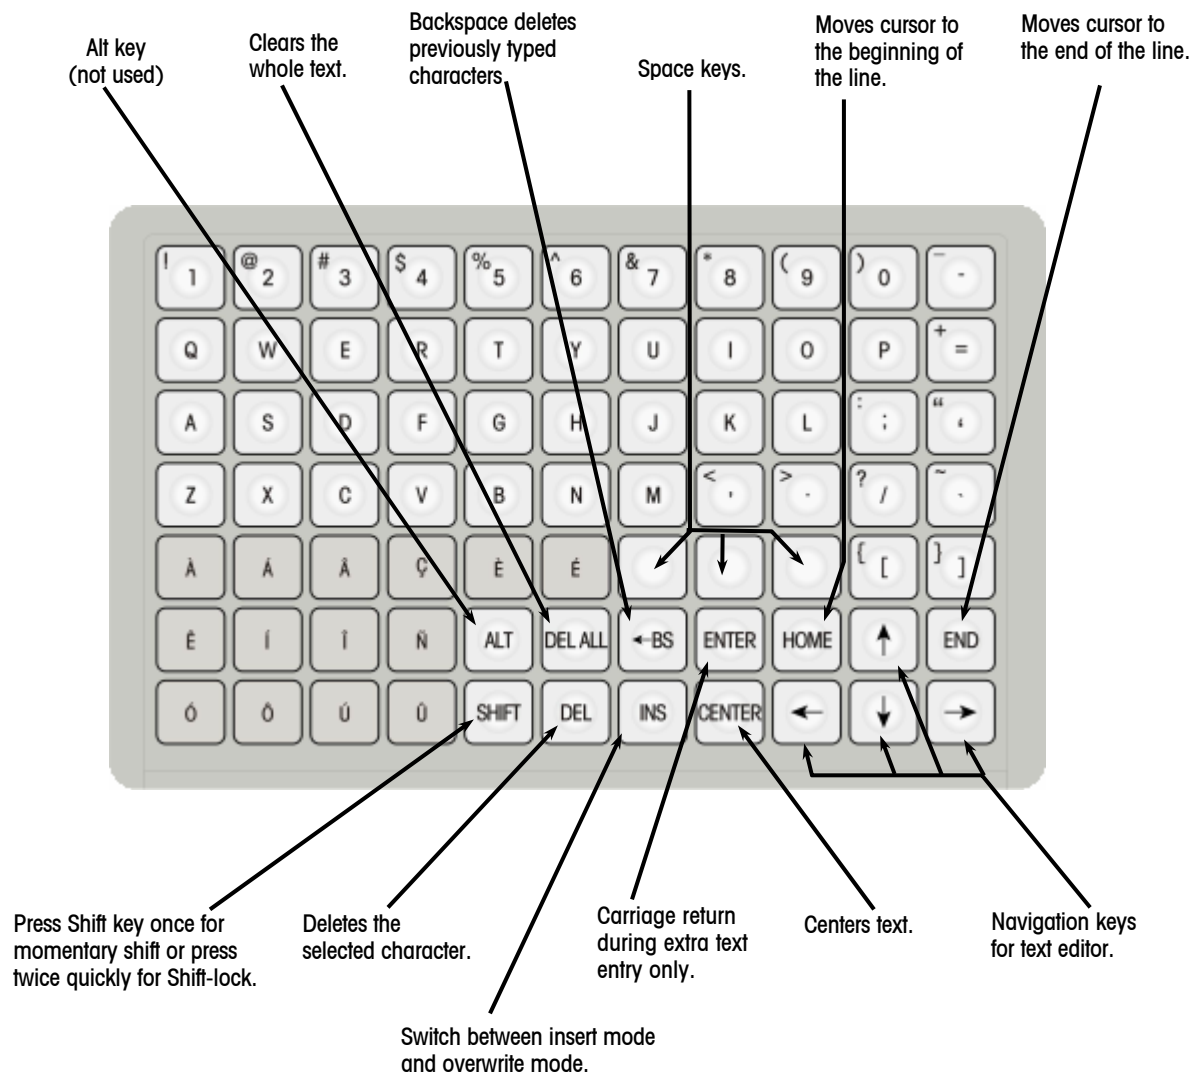

The keyboard consists of a membrane switch pad with an overlay that has raised domes over the switch positions to provide tactile feedback and an audible tone. The 28 keys on the right keypad are used for entering basic scale functions.

The 77 keys on the left keypad can be programmed as direct access keys (Presets). There are two levels to the preset keys for a total of 154 PLU Presets. The Preset keys should be configured first before being used. Please refer to section 3 'PLU Preset' for programming the Preset keys.

To recall a PLU simply select the proper level and press the desired preset.

The following function keys (located under the Preset insert) can be used as word processing keys while entering the PLU description, store address, Extra Text and etc.

2 Installation

Leveling

Adjust the four feet until the bubble, located under the scale platter, is in the center of the bubble level. Then adjust the foot locks until the feet are secure.

Bubble Level

Correct

Incorrect

Power On

Note: If unit has been stored or transported in below freezing temperatures, allow the unit to warm up to room temperature **before** turning on AC power.

Remove the power cord from the package box. Install the power cord in the receptacle on the bottom of the scale. Connect the power cord to AC power. Set the power switch to the ON position. Allow at least 30 minutes warm-up time before initial calibration.

Label Installation

Open the plastic door on the right side of the scale.

Slide out the printer.

Press the trigger to open the printer head.

Install the labels according to the instruction legend on the printer frame. Secure the liner on the take-up spool by spinning the spool clockwise.

Chapter 2: Installation

Close the printer head gently, until it clicks.

Slide the printer into the scale. Close the plastic door.

Press the PRINT key to bring the label into the start position.

Note: Please refer to section 3 'Label Format' to set the proper label format.

FOR YOUR NOTES

3 Unit Setup

Setup Mode Menu Navigation

Navigating within the Setup Menu

【ENTER】 Selects displayed item and moves to sub menu level, accepts the variable in the list.

【ESC】 Backs up one menu level and does not accept change.

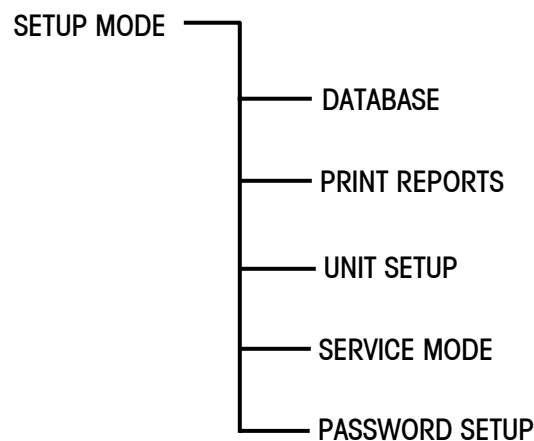

【↑】 Moves Up to next menu item, will wrap around from the last entry to the first.

【↓】 Moves Down to next menu item, will wrap around to end from the first entry.

Note: The scale is waiting for data input when the display shows a question mark '?' after the menu prompt.

Setup Mode Menu

To enter setup mode, press the SETUP MODE key. Press the ESC key to return to the first option in the current menu. Press ESC key again to return to the previous menu. To exit out of SETUP mode, press ESC until the display shows normal weigh state.

PLU Preset

Layer 1 and 2 Selection

The 8442 has 2 layers of preset keys doubling the number of available presets. During normal operation you can switch between Layer 1 and Layer 2 by pressing the UP【 ↑ 】arrow key. The prompt "READY1" during normal operation indicates that preset layer 1 has been selected. The prompt "READY2" indicates that preset layer 2 has been selected.

Programming Preset Key

Follow the instructions below for programming the preset keys.

Marquee

A marquee is a scrolling message that can be displayed on the customer display after the scale has been idle for 5 seconds.

Setting Message

After toggling to MARQUEE, press the ENTER. Input the marquee and confirm with ENTER key.

Programming Passwords

Use the following procedure to program the DATABASE, UNIT, and SERVICE passwords. The default for each of these passwords is ZERO (0) for no password enabled.

4 Operating the Scale

Basic Functions

Zero Scale

This scale is equipped with automatic zeroing software which compensates for small changes in weight. This software will not activate when a package tare has been taken. After cleaning the debris from the platter with the scale on, the display can read :

- a negative value
- " _ _ _ _ _ " segments can be lit,
- or the weight display will be blank.

Solution : Press the ZERO key

If the message appears again or the weight change is too much, turn the scale off and back on again with the main power switch.

Label Feed

Pressing the PRINT key in READY mode will initiate a label feed. This will help the scale adjust the label position after new labels have been installed.

5 Database Setup

General Description

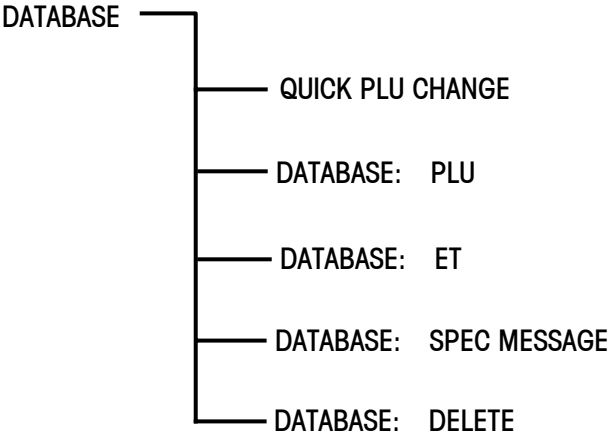

Memory Maximum Capacities

The Product Look Up, PLU, and Extra Text, ET, files can be determined as shown in the table below during the initialization of the database. **This should only be done at installation as it will erase the database.**

Number of PLU's	ET Memory Available
5060	OK
4200	97K
3790	145K
2510	291K
1880	363K
730	495K
CUSTOM	Based on Number of PLU's

Database Functions

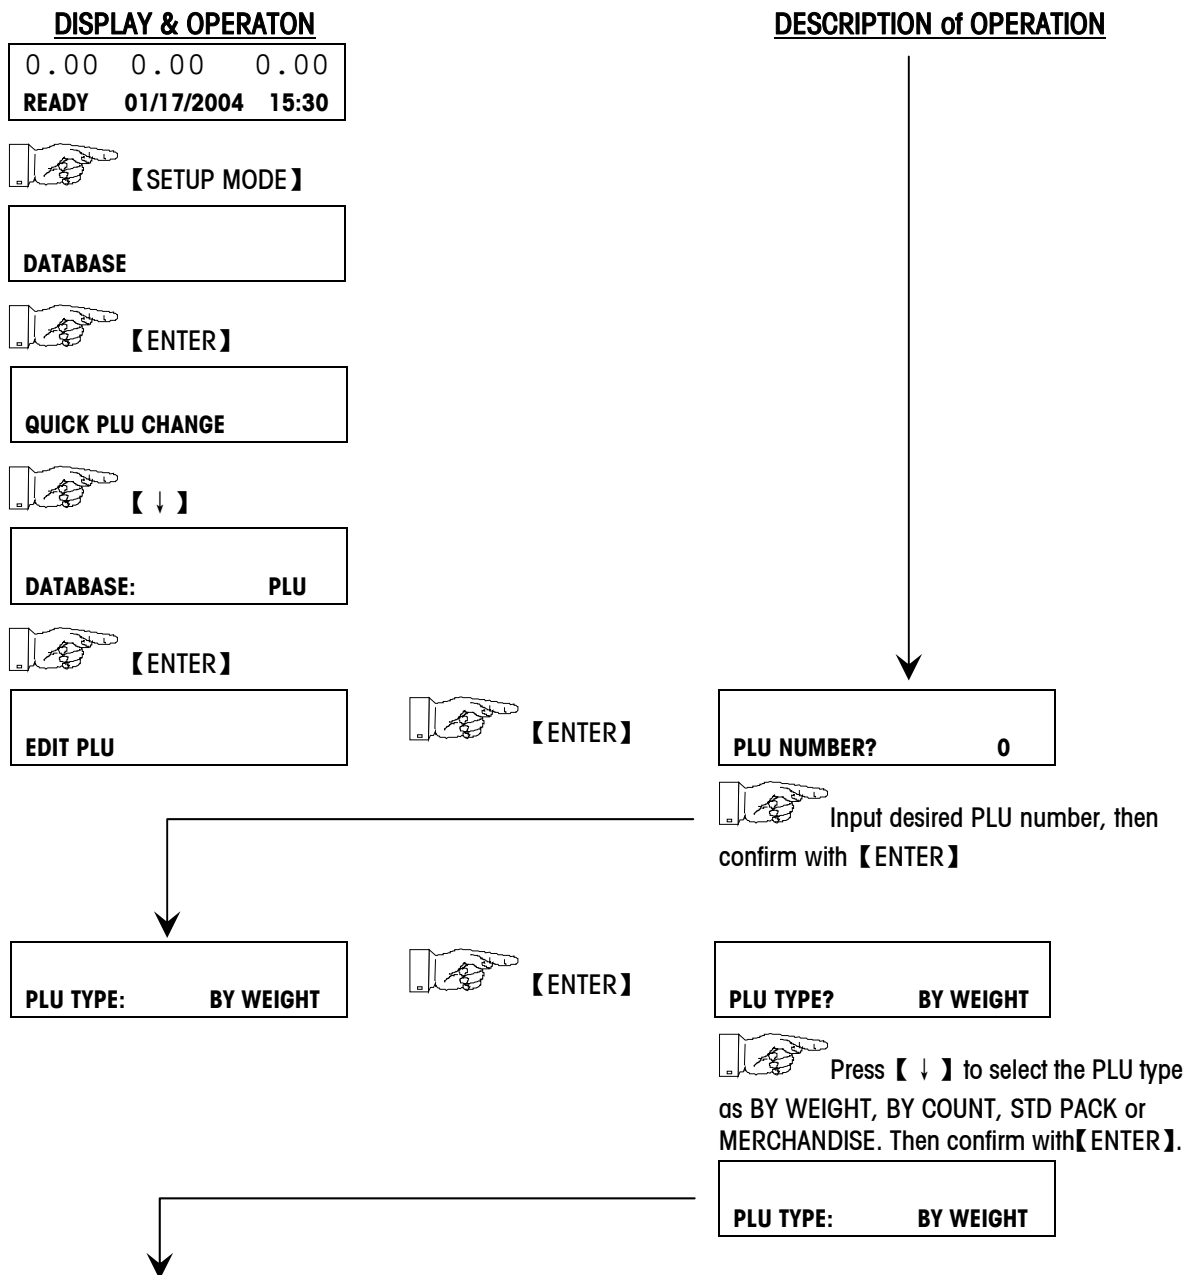

With this setup menu you can edit the PLU, EXTRA TEXT and SPEC MESSAGE.

Database edit

PLU

From the DATABASE: PLU menu press the DOWN or UP keys to change between EDIT PLU and COPY PLU. Select EDIT PLU, and then ENTER to set.

 **ITEM NO:** 0000000000000

 **【ENTER】**

ITEM NO? 0000000000000

 Input the item number. Then confirm with **【ENTER】**.

ITEM NO: 0000000000000

 **DESC1**

 **【ENTER】**

L-001 C-01 Desc-1

 Input first line description. Then confirm with **【ENTER】**.

DESC1

Note: Use QWERTY keypad under preset keypad.

 **DESC2**

 **【ENTER】**

L-001 C-01 Desc-2

 Input second description. Then confirm with **【ENTER】**.

DESC2

 **GROUP:** 0

 **【ENTER】**

GROUP? 0

 Input the group number. Then confirm with **【ENTER】**.

GROUP: 1

 **UNIT PRICE:** 0.00

 **【ENTER】**

UNIT PRICE? 0.00

 Input the unit price. Then confirm with **【ENTER】**.

UNIT PRICE: 1.25

 **【↓】**

Chapter 5: Database Setup

 **NETWEIGHT:** 0  **【ENTER】**

Note: If PLU is a By Weight or By Count PLU the 'NETWEIGHT' step will be skipped.

NETWEIGHT? 0

 Input the Net Weight. Then confirm with **【ENTER】**.

 **【↓】**

TARE: 0.00  **【ENTER】**

Note: If the PLU is a By Count or Standard Pack PLU the 'TARE' step will be skipped.

NETWEIGHT: 16

TARE? 0.00

 Input the TARE. Then confirm with **【ENTER】**.

 **【↓】**

SHELF LIFE DAYS: 0  **【ENTER】**

TARE: 0.02

SHELF LIFE DAYS? 0

 Input the SHELF LIFE DAYS. Then confirm with **【ENTER】**.

 **【↓】**

USE BY DAYS: 0  **【ENTER】**

SHELF LIFE DAYS: 2

USE BY DAYS? 0

 Input the USE BY DAYS. Then confirm with **【ENTER】**.

 **【↓】**

EXTRA TEXT NUMBER: 0  **【ENTER】**

USE BY DAYS: 3

EXTRA TEXT NUMBER? 0

 Input the EXTRA TEXT NUMBER. Then confirm with **【ENTER】**.

 **【↓】**

LABEL FORMAT: 0  **【ENTER】**

EXTRA TEXT NUMBER: 1

LABEL FORMAT? 0

 **【 ↓ 】**

ALLOW PRICE CHANGE: YES  **【 ENTER 】**

LABEL FORMAT: 1

ALLOW PRICE CHANGE? YES

 Input the LABEL FORMAT. Then confirm with **【 ENTER 】**.

 **【 ↓ 】**

COUNT NUMBER: 0  **【 ENTER 】**

ALLOW PRICE CHANGE: NO

COUNT NUMBER? 0

 Press **【 ↓ 】** to select YES or NO. Then confirm with **【 ENTER 】**.

Note: If the PLU is a By Weight PLU the 'COUNT' step will be skipped.

 **【 ↓ 】**

SPEC. MESSAGE: 0  **【 ENTER 】**

SPEC. MESSAGE? 0

 Input the COUNT NUMBER if necessary. Then confirm with **【 ENTER 】**.

 **【 ESC 】**

SAVE CHANGES? YES

SPEC MESSAGE: 1

 Input the SPEC MESSAGE NUMBER. Then confirm with **【 ENTER 】**.

 Press **【 ↓ 】** to toggle between YES and NO, then confirm with **【 ENTER 】**. Step to the next PLU.

PLU NUMBER?: 0

Extra Text

From the DATABASE: ET menu press the DOWN or UP keys to change between EDIT ET and COPY ET. Select EDIT ET, and then press ENTER to set.

6 Maintenance

External Cleaning

Turn the scale power off by placing the power switch to the OFF position (Press the "0" on the power switch).

- Disconnect power
- Use a soft clean cloth dampened with mild detergent and water, or with mild cleaner to wipe the exterior surfaces.
- **Do not spray directly on the unit.** A mild spray cleaner can be used by spraying the cleaning cloth.
- Do not use solvent or commercial cleaners on the unit. They may harm the surfaces or damage the keyboard.

Cleaning Printhead

CLEAN PRINthead USING THE METTLER TOLEDO CLEANING PEN PART NUMBER 082287020.
DO NOT SCRAPE THE PRINthead WITH ANY OBJECT TO REMOVE GLUE OR LABEL DEBRIS OR SEVERE DAMAGE MAY RESULT.

- Turn the scale off by placing the power switch to the OFF position. Disconnect the power cord from the outlet.
- Open the plastic door on the right side of the scale and slide out the printer.
- Press the trigger to open the printhead.
- Clean the printhead with a soft clean cloth soaked in isopropyl alcohol, or the METTLER TOLEDO Cleaning Pen part number 082287020.
- Push the printhead back until it clicks.
- Slide the printer in and close the plastic door.
