

Electronic Multichannels

E4 XLS+ Multichannels

Precision Across All Channels

Easy operation

The E4 XLS+ works the way you think. Its color graphics, large screen and precision joystick have revolutionized electronic pipetting. The simple interface makes adjusting settings quick and easy.

Channel consistency

The LTS™ cylindrical tip design assures fast tip mounting, consistent sample loading and leak-free seals across all channels. In addition to LTS, the new push bar design in all XLS+ multichannel pipettes assures exceptionally even and consistent aspiration across all channels.

Simplify repetitive pipetting

Multi-dispense takes the drudgery out of repetitive pipetting by calculating how many aliquots can be dispensed from a single pickup. Autopace simplifies repeat dispensing – click the joystick once and repeat dispense across a plate.

E4 XLS+ Electronic Multichannels

Speed Your Workflow

The E4™ XLS+™ multichannel pipette is a perfect tool for high-throughput work. Fast loading, lightweight, easy to handle and precision and consistency across all channels. Pipette settings, protocols and service alarms can be password protected for GLP/GMP compliance. What's more, GLP data, such as service records, cycles and status data is completely tamper proof.

Save your protocols

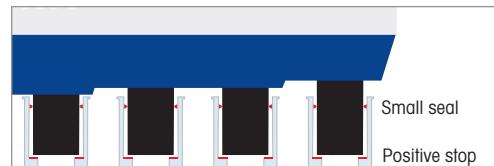

Store multiple custom protocols in the E4's on-board memory. Simultaneously review and select your protocols with a simple movement of the joystick. No more re-entering protocols over and over again!

METTLER TOLEDO

E4 XLS+ Electronic Multichannel Pipette

Precise, High-throughput Pipetting

- Standard modes include Basic pipetting, Multi-dispense and Mix
- Advanced modes include sequential volume programming for complex protocols, titration, dilution and reverse mode pipetting
- Control of aspirate, dispense and mix speeds for challenging liquids
- Optional blowout and automatic dispense settings for precision pipetting
- Password protect pipette settings for GLP security
- Save your favorite protocols
- Simple or complex: configure the E4 for any task
- Multilingual display and on-screen Help
- Easily accessible service records and alarms

LTS™ LiteTouch™ Tip Ejection System

- Small seal and positive stop means consistent sample loading – across all channels, every time[®]
- No nozzle o-rings
- Lower forces – less fatigue
- Progressive tip ejection

Ordering Information

MT-Order No.	Description	Volume Range
8-Channel		
17013792	E8-10XLS+	0,5–10 μL
17013793	E8-20XLS+	2–20 μL
17013794	E8-50XLS+	5–50 μL
17013795	E8-200XLS+	20–200 μL
17013796	E8-300XLS+	20–300 μL
17014498	E8-1200XLS+	100–1200 μL
12-Channel		
17013797	E12-10XLS+	0,5–10 μL
17013798	E12-20XLS+	2–20 μL
17013799	E12-50XLS+	5–50 μL
17013800	E12-200XLS+	20–200 μL
17013801	E12-300XLS+	20–300 μL
17014499	E12-1200XLS+	100–1200 μL

Note: Li-Ion battery and Wall Power Supply included.
